

VRS PIN REGISTRATION SYSTEM

Accurately locate positives onto screens, then clamp the pre-registered screens onto the press.

Go from art dept. to production in a flash!
Pre-registered screens go to the press floor
Saving valuable time!

How it works

Attach your positives in register to setup sheets using an alignment grid backdrop.

Locate and attach your positives in register to your screens using the Vastex pin board with screen stops.

Burn all your screens in register with any exposure unit.

Accurately locate and clamp each screen onto your press using the Vastex pallet jig.

Now you are ready to print!

OPTIONS:

Adapter for 23 x 31" screen manual pin board.

Special pallet jig and pin board for side clamp manual press.

The VRS pin registration system works with **any** exposure unit, **any** screen and **any** rear clamp manual press. Also works with many automatic presses. 15" (38cm) max clamp width.
